Be-Ge Driver's Seat Operation Guide (3110R-B)

### 1 Seat Cushion Adjustment

(Adjustment length: 80mm) LIFT the lever and adjust the seat cushion forwards/backwards.

### 2 Horizontal Adjustment

(Adjustment length: 210mm) LIFT the sliding mechanism and adjust the seat to the desired length.

### 3 Seat Back Adjustment

LIFT the lever and lean forward/backward to adjust the seat back angle. RELEASE the lever upon finding the desired angle.

### 4 Armrest

Use the armrest adjustment knob to adjust the angle of the armrest. The armrest may also fold up or down as necessary.

### 5 Safety Belt (Seat Belt)

(2-, 3- or 4-point belt) Please secure yourself to the seat by affixing the safety belt (seat belt) to the belt buckle.

### 6 D-Loop

PRESS the knob to adjust the height of the upper belt portion.

### 7 Seat Cushion Tilt

LIFT the lever and adjust the seat cushion as necessary. Press DOWN on the lever upon finding the desired angle.

### 8 Height Adjustment

(Adjustment height: 100 mm) To RAISE the seat, lift the lever UPWARDS.

To LOWER the seat, press the lever DOWNWARDS.

### 9 Adjustable Shock Absorber

LIFT the lever to the UP position to INCREASE shock absorption. PUSH the lever to the DOWN position to DECREASE shock absorption.

### 10 Air Ventilation

Switch the button to the ON/OFF position to control air ventilation.

### 11 Seat Heating

Set the button to position "O" (off), "I" (level 1), or "II" (level 2).
