

# Built Ready for Local Fleet Operations

The **Fusion electric cart** and the low-speed vehicle (LSV) lineup delivers safe, reliable, and versatile transportation for commercial and industrial environments.

Fusion electric carts and LSVs offer a practical way to support people moving and utility work across local fleet environments. Designed for commercial and industrial applications, Fusion arrives ready to work with standard features that support safety, reliability, and day-to-day usability.

Whether moving passengers across a campus, supporting hospitality operations, or helping teams complete utility tasks around a facility, Fusion provides a simple electric solution for environments where full-size vehicles are not always the right fit.

## Built for the Way Local Fleets Operate

### Ready for Daily Fleet Use

Passenger and utility models come equipped to move people, supplies, and equipment with confidence.

### Built with Safety in Mind

Visibility, occupant safety, and pedestrian awareness features help support safer movement around people and property.

### Simple to Charge and Service

Lithium-ion power, onboard charging, Bluetooth diagnostics, and common parts help simplify daily fleet use.

### Made for Local Environments

From campuses and resorts to municipalities and warehouses, Fusion is designed for short-distance movement where larger vehicles are not always practical.

FUSION™

WAEV

## Key Features

- Commercial electric cart and low-speed vehicle platform
- Available in Cart and LSV configurations
- Passenger and utility models for transportation and operational support
- Lithium-ion battery system with onboard charging
- Heated and insulated battery pack for cold-weather performance
- Standard safety features, including seat belts, mirrors, lighting, backup camera, backup alarm, pedestrian noise emitter, and DOT windshield
- Powder-coated and e-coated steel frame for strength and corrosion resistance
- Bluetooth diagnostics and shared parts across models
- Utility options including dump bed, tool holders, cargo boxes, ladder racks, tires, and beacon lights

Backed by ABC Companies' nationwide support and service network, Fusion gives fleet customers a practical electric cart and LSV solution for moving people, supporting utility tasks, and managing local operations with confidence.
