

COACH MODEL : T840, T845, T940, T945, C-2045, T2140, & T2145
DATE : 5/29/2015
SUBJECT : Blower Motor Wheel Direction

When working with blower motor wheels pay close attention to the blades on the fan assemblies. Hold the wheel in your hand. the hub side is the short side with the retainer. If the blades point to the right the direction is right hand rotation wheel and if the blades point to the left it will be a left hand rotation wheel as shown in the pictures below.

NOTE: The pictures are taken from the front view, motors would install from the rear of the fan blades.

Part # 632803116

Left hand rotation

Part # 10627888

Right hand rotation
