

**COACH MODEL :** C-2045, T2140, T2145 and CX 45

**DATE :** 6/10/2015

**SUBJECT :** Mirror Switch Wiring Details

When diagnosing a mirror switch, start by locating the pin numbers on the back of the switch. Reference the charts below. Verify voltage and ground by operating the switch in the desired direction.

The mirror switch underwent wiring changes around 2006 and again in 2011, which caused the pin positions to change. Refer to the wiring schematic assigned to the VIN number you are working on.

The following charts and tables illustrate the pin position for the older and newer style switches.

Older Version	Left Mirror		Right Mirror	
	Power	Ground	Power	Ground
Left	5	8	6	7
Right	8	5	7	6
Up	8	3	7	4
Down	3	8	4	7

2006 -2011 Version	Left Mirror		Right Mirror	
	Power	Ground	Power	Ground
Left	4	3	7	6
Right	3	4	6	7
Up	3	5	6	8
Down	5	3	8	6

2011-newer Version	Left Mirror		Right Mirror	
	Power	Ground	Power	Ground
Left	5	7	6	8
Right	7	5	8	6
Up	7	3	8	4
Down	3	7	4	8
