

Coach Refurbishment Program

List of Options:

- 25 Point Mechanical Inspection
- 50 Point Mechanical Inspection

MECHANICAL

- Rebuilt S 60 Engine w/Accessories, Hoses, & Belts
- Rebuilt Cummins ISM 450 w/Accessories, Hoses, & Belts
- Rebuilt B500 w/New Driveline
- Wheelchair Lift Installation
- Two Color Paint
- New Unitized Wheel Bearings (6)
- New Front Independent Suspension Bushings
- New Tag Axle Independent Bushings
- New Air Bellows
- Drive Axle Upper Stabilizers
- Rebuilt A/C Compressor
- Radiator
- Charged Air Cooler
- New Tires
- New Brake Chambers, Hoses
- Rebuilt Air Dryer
- New Batteries
- Rebuilt 140 Amp Alternators
- New ABC Shock Absorbers
- Nine Inch Steel Wheel Kit
- Nine Inch Durabright Alcoa Wheels

SAFETY

- 3 Point Belt Passenger Seats
- 3 Point Belt Driver Seat
- AVIR Inspection
- Saucon
- Kidde Fire Suppression System
- SmartWave Tire Monitoring System
- Back-up Camera System

BODY

- New Front Cap w/Upgraded Headlight Assembly
- Rear Window Cap
- New LED Side Turn Lights
- New LED Tail Light Package
- New Aisle Floor Covering
- New Step Treads
- Digital Graphics
- New Windshields
- Dash Restoration

PASSENGER AMENITIES

- Wi Fi
- AM-FM DVD
- 110 Volt Power Supply
- AM-FM DVD w/4 (15.4") Monitors

50 Point Inspection

Engine air intake piping for loose clamps, cracked hoses, etc. (visually)
Drive belts condition and tension (visually)
Pipes and hoses for security, damage and chaffing
Fluid leaks in engine compartment, wheel hubs etc.
Tire inflation and condition
Wheel nuts for tightness
Wheel rims for cracks and deformation
Suspension ride height
Emergency windows for security
Air cleaner restriction indicator
Crankcase breather tube (Cummins)
Dashboard gauges and warning lights operation
Screen in air intake for radiator
Engine rear mounts adjustment
Engine coolant DCA
Engine coolant antifreeze concentration level
Engine air cleaner restriction indicator operation
Steering ball-joints for excessive play
Battery cable connections for corrosion and tightness
Battery electrolyte level
General condition of the brake assemblies for damage and corrosion
Brake lining wear
Brake chamber condition and leaks
Brake system valves, lines and fitting for leaks
Suspension air bellows external condition / leaks
Shock absorbers for external damage and leakage
Air dryer operation
All lights, interior and exterior
Headlight beam settings
Windshield wiper and washer condition, level, and operation
Passenger door operation and adjustment
Lavatory operation, toilet flush
Engine water pump drain hole to be sure it is open (Detroit Diesel)
Engine Crankshaft vibration damper (Detroit Diesel)
Throttle control
Toe adjustment of front wheels
Drive axle breather for freedom of obstruction
Air suspension leveling valves for wear and damage
Emergency window operation
Voltage regulator brushes
Air system pressure protection valve settings
Passenger door locking cams for wear
Wheel bearings end play
Wheel brakes: condition of guide pin and tappet bolts
Wheel brakes: caliper assembly operation
Wheel brakes: brake pad thickness
Wheel brakes: disc run-out
Propeller shaft
Exhaust system
Differential oil

25 Point Inspection

Engine air intake piping for loose clamps, cracked hoses, etc. (visually)
Drive belts condition and tension (visually)
Fluid leaks in engine compartment, wheel hubs etc.
Tire inflation and condition
Wheel nuts for tightness
Wheel rims for cracks and deformation
Emergency windows for security
Dashboard gauges and warning lights operation
Steering ball-joints for excessive play
Battery cable connections for corrosion and tightness
Battery electrolyte level
General condition of the brake assemblies for damage and corrosion
Brake lining wear
Shock absorbers for external damage and leakage
Air dryer operation
All lights, interior and exterior
Windshield wiper and washer condition, level, and operation
Passenger door operation and adjustment
Emergency window operation
Voltage regulator brushes
Wheel bearings end play
Wheel brakes: condition of guide pin and tappet bolts
Wheel brakes: caliper assembly operation
Propeller shaft
Exhaust system
