

COACH MODEL	Any
DATE	10.02.2025
SUBJECT	Driver's Tool Kit

Sometimes, a coach driver's route doesn't go as planned and operations cease for one reason or another. A downed coach equals a loss in productivity and, at times, multiple costs like towing and servicing can become burdensome. Often, a simple onsite fix would have been sufficient to resume operations. This is where a **Driver's Tool Kit** comes in handy! Below are a few ABC Select tools that are essential for all coach and transit Drivers:

Driver's Tool Kit

ABC-17643

Rechargeable Flashlight

For illuminating darker areas.

Multimeter

Measures the voltages of the coach battery, circuit breakers, & strip fuses.

Flathead Screwdriver

Best for opening various panels within the coach.

Hex Key Set

Primarily used for removing coach floor panels.

Crescent Wrench

Ideal for removing small components like nuts, bolts, and strip fuses.

Square Key

Used to open various access panels throughout the coach.

Cable Ties

For your cable management needs.

Tool Bag

Keeping your Drivers Tool Kit safe and organized.
